

Helping Donors Share

Giving through your Community Foundation

Our staff strives to make your charitable giving easy, rewarding and more beneficial to the community.

Services we can provide

When you establish a fund with us, you have the option of working with our team of knowledgeable, skilled professionals to enhance your giving experience. We can provide these personalized services:

- Create a charitable giving plan that conveys your values, beliefs and convictions.
- Discuss ways to engage your child(ren) or other family members in charitable giving.
- Arrange meetings with donors who share similar charitable interests.
- Provide information about pressing community needs.
- Plan a site visit to see charitable work in action in the community.
- Share information about grant opportunities that match your interests.
- Help you grow your fund through thoughtful and tax-effective gifts during lifetime and through your estate.

In addition, you can review your charitable giving to date, recommend a grant online or update your contact information at any time of day by accessing **Donor Services Online** at www.cffoxvalley.org.
